SUMMARY:

- Logical and results-driven Software Developer dedicated to building and optimizing user-focused websites for customers with various business objectives. Judicious and creative when crafting effective websites, apps, and platforms to propel competitive advantage and revenue growth. Technically proficient and analytical problem solver with a calm and focused demeanor. Developed web applications across multiple APIs, third-party integrations, and databases.

WORK HISTORY:

- **Full-Stack Developer:**
- Logitca Solutions, Gaza, Palestine
- 2022 – 2023
 - Built APIs and data clients to consume APIs using Django Rest Framework.
 - Developed server-side logic in Python and JavaScript.
 - Authored code in Python and JavaScript within the Django framework.
 - Worked in an Agile Scrum team environment with a high-tempo production cadence.
 - Collaborated with a multidisciplinary team of designers, developers, and system administrators.
 - Built flexible, reusable code and libraries for future use.
 - Integrated third-party APIs from external applications into web platforms.

- **Mobile Apps Developer:**
- Freelance
- 2021
 - Designed, developed, and maintained mobile applications using Flutter and Dart
 - Conducted code reviews and ensured code quality and adherence to best practices
 - Worked with RESTful APIs to integrate backend systems and third-party libraries
 - Improved application performance by optimizing code and reducing app size
